CCI CARPENTER'S COMPLETE INC. Construction Services

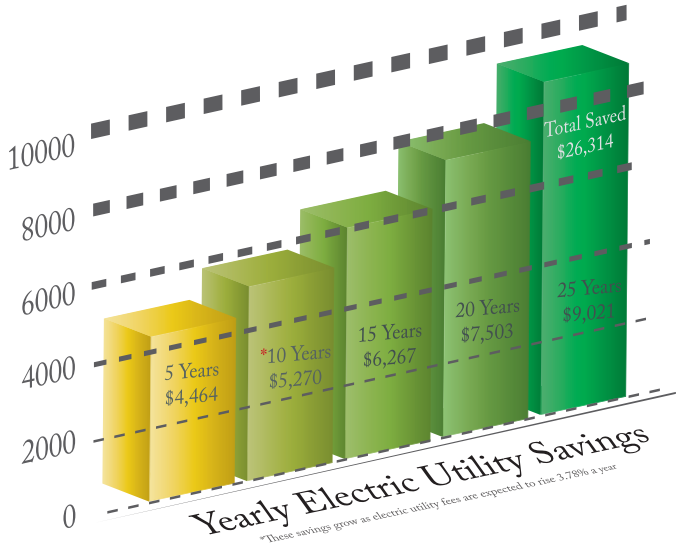
& SolarTek of Louisiana Energy

Public officials are in the process of creating a program that will allow Louisiana Residents who have benefitted from the Road home Program to receive up to 40,000 power their home with Solar Energy.

Solar Powered Savings

The average household has over $1,900 in energy bills annually. An all electric house can easily be over $3000 per year. With the implementation of various solar equipment, you can cut your energy bills in half or eliminate them completely. Your utility company could even end up paying you. Carpenter's Complete together with SolarTek Energy of Louisiana to help you get the most out of your solar equipment, and make your home as energy efficient as possible.

With Incentives like these who could resist the power of Solar Power?



Additional Financial Incentivise

With State and Federal tax credits and rebates you can expect to receive up to an 80% Rebate on the cost of your initial solar system.

How much out of pocket Cash will you spend to power your home with Solar?

Contract Total:	$25,000
State of Louisiana	
Tax Refund (50%)	-$12,500
Federal Tax Credit (30%)	-$7,500
